

Three Levels of Questions

- **Level One: Literal (right there, reading for facts and accuracy)**
- **Level Two: Inferential and interpretive (drawing conclusions, reading between the lines)**
- **Level Three: Evaluative (defending an opinion, synthesizing information, bringing personal observations and insights to the text)**

On the page Literal	Between the Lines Inferential	Off the page Evaluative
<ul style="list-style-type: none"> • What countries are represented in this map? • What factors cause stress? • What patterns are reflected in the table? • What is globalization? • List the six major branches of psychology. • What is body language? • What is an improper fraction? • When and where was Dylan Thomas born? • What is a rhetorical question? • How do savings bonds help an individual to plan for and save money? 	<ul style="list-style-type: none"> • What makes an effective leader? • Why do so many people have a difficult time controlling their intake of substances such as alcohol, tobacco, and other drugs? • How do you know that 2.3 is greater than 2.27? • Create a visual representation (such as a collage, collection of objects, or a sketch) that conveys the overall mood and theme of this story. • What happens if a person plans a budget based on the gross income listed on his or her pay slip? 	<ul style="list-style-type: none"> • Why is it important in a society such as ours that education institutions should recognize and reward merit in many different forms? • Thin is in. Explain whether you agree or disagree with this statement. • Write a fraction or a mixed number to make this statement true: $1\frac{3}{7} < ? < 2\frac{1}{7}$ • In what ways does this story follow the archetypal pattern of quest myths? • What is the potential for bartering in the future? • What would you recommend to a person who has a difficult time saving any money but wishes to invest? Why?
