

EQAO Reading Section - Tips for Students

The reading questions on the test fall into two types: multiple choice and written answers.

Written Answers

- Read each question carefully.
- The space provided indicates about how much you should write. Always be sure to write enough to show you understand the reading.
- Sometimes you will be asked to give a reason or to explain. Try using the word "because" in your answer.
- Sometimes you will be asked to complete a statement based on what you have read in the selection. The space you fill in will have a period at the end because you are completing a sentence that began in the question.
