

MISSISSAUGA SECONDARY SCHOOL

Grade 12 Math for College Technology

Course Overview

Course Code: MCT4C0

Credit Value: 1.0

Pre-requisite: MCF3M0 /
MCR3U0

Resource: Mathematics for College
Technology 12 Workbook
(\$10 replacement)

Course Description:

This course enables students to extend their knowledge of functions. Students will investigate and apply properties of polynomial, exponential, and trigonometric functions; continue to represent functions numerically, graphically, and algebraically; develop facility in simplifying expressions and solving equations; and solve problems that address applications of algebra, trigonometry, vectors, and geometry. Students will reason mathematically and communicate their thinking as they solve multi-step problems. This course prepares students for a variety of college technology programs.*

Course Breakdown:

Unit 1: Exponential Functions

Unit 3: Trigonometry Functions

Unit 2: Polynomial Functions

Unit 4: Applications of Geometry

Evaluation Breakdown:

70% (Term)	Knowledge & Understanding:	30%	The following assessment & evaluation instruments may be utilized to evaluate students on the four categories of knowledge and skill: <ul style="list-style-type: none"> • Tests & Quizzes • Assignments • Projects & Presentations
	Application:	25%	
	Communication:	10%	
	T.I.P.S. : (Thinking, Inquiring, Problem Solving)	15%	
30% (Summative)	Culminating Task:	10%	
	Final Exam:	20%	
<p><u>Note:</u> The following Learning Skills will be assessed and recorded on the student's report card:</p> <p>• <i>Working Independently</i> • <i>Organization</i> • <i>Teamwork</i> • <i>Work Habits/Homework</i> • <i>Initiative</i></p>			

* For more information, please refer to the Ontario Ministry of Education Grade 12 Curriculum Outline at

<http://www.edu.gov.on.ca/eng/curriculum/secondary/math1112currb.pdf>

Attendance & Punctuality:

Regular attendance to scheduled classes, and active participation in learning activities, will provide students with the experiences necessary to successfully complete this credit. Attending classes on time will ensure that there are no gaps in the student’s learning. Furthermore, it will also demonstrate commitment to learning, and respect for self & others. Please refer to the student agenda for more information regarding the Attendance and Punctuality Policy.

Homework:

Consistent homework completion is essential for student success. Although students will be given some class time to initiate their homework, they should expect an average of 30 minutes of homework each night. At the beginning of each unit or chapter, students will be given a homework outline. Consequently, students will have the opportunity to plan effectively, manage time efficiently, and work ahead, if possible. Lastly, homework will be monitored periodically, according to your teacher’s instruction.

Missed Evaluation:

Students will be given ample notice regarding the scheduled date for an evaluation. Students who know ahead of time that they will be absent for the evaluation, must discuss the situation with their teacher **beforehand**. Students who are unexpectedly absent for an evaluation for a legitimate reason (i.e. illness) must provide their teacher with a Mississauga Secondary School, Math Department, “REASON FOR ABSENCE” Form, which is available online at the course Angel site, as well as the MSS website (www.msslions.ca). A **completed** form must be submitted to your teacher **upon return**. All completed forms will be retained on file. If approved, the student will be given an opportunity to write an alternate evaluation on the immediate Thursday, during the student’s lunch period, in the specified classroom. For more details, please refer to the Math Department Information Board, which is located in the Math Forum area between Rooms 303 & 304.

Deadlines:

Students will be given ample notice regarding due dates for assignments. Students are expected to submit work to their teacher **on time**. Please refer to the student agenda for more information concerning the Deadlines Policy.

Extra Help:

Extra help is available to the student in many forms. Firstly, students are encouraged to seek assistance from their teacher, at the appropriate time during the regularly scheduled class. If further assistance is required, students may meet with their teacher during the office time specified by their teacher. **Please record it below**.

Teacher Name: _____	<u>Teacher Assistance Availability:</u>
	Mon. _____ Tues. _____ Wed. _____ Thur. _____ Fri. _____
	OR Day 1: _____ Day 2: _____ Day 3: _____ (Complete above as directed by your teacher)

I have read the Course Overview for MCT4C0.
